

University of Louisiana at Lafayette

Faculty Senate

To: James McDonald, EO
From: Leslie Bary, Chair, *Ad hoc* Committee on Status of Women
Re: Meeting of committee, 12 November 2014
Date: 13 November 2014

The committee met Wednesday, 12 November 2014. Present were Bary, Ferguson, Gentry, Mopper, Réaux and Wooddell. Absent were Hasha and Lasala.

On the agenda was the salary equity study, which we have not been able to continue in the past few years because the institution has been unwilling or unable to provide the necessary data.

We formulated a data request to present to the Executive Committee, and sent it to EO Jim McDonald. We also discussed other forms of inequity (including promotion) that this committee might address separately, and the motion George Wooddell and others are formulating on the routing of data requests through the Senate.

We requested the data for January 31, 2015. We will consult informally until that time re response to this request, and meet again in early February. Agenda for that meeting will be progress on gathering data for the salary study and a progress report on the sexual assault project(s).
