

UNIVERSITY OF LOUISIANA FACULTY ADVISORY COMMITTEE

Guidelines for Faculty Senates

The University of Louisiana Faculty Advisory Committee takes the following stand with regard to Faculty Senates in institutions of the ULS system.

Although each faculty senate is free to adopt its own policies, the following are recommended.

1. The Faculty Senate must be free to conduct its business without undue influence from administrators or faculty holding administrative positions.
2. Faculty senators and officers must not hold administrative positions in the institution, unless this is specifically permitted by that Senate in its constitution and/or by-laws.
3. Administrators and faculty who hold administrative positions should not interfere with the election of senators.
4. Administrators and faculty holding administrative positions must not attempt to influence faculty regarding whom should be elected as senators.
